Subject: follow-up question

Hello Kevin,

Thank you for speaking with me several weeks ago about our audit of the WPDES program. We have been doing some more work with the “75 issues” request that EPA made of Wisconsin to address potential inconsistencies between federal and state requirements. There was recently a petition sent to EPA regarding Wisconsin’s progress in addressing these issues, in essence requesting EPA to require the state to take action and, absent an adequate response, assume control of the program.

We are hoping to speak with someone at EPA regarding this development, including the process that will follow in response to the petition. Could you please recommend a contact at EPA who could address our questions?

Thank you again,

Jake
